# OVERVIEW

Early Childhood Education is basically studies that are being done on at the early stage of the child's lives.

This course is designed to cover the criteria for early childhood services. This diploma course in early childhood education will explore the principles and techniques one can use to ensure a child learns the best behavioral as they're growing. No two children will respond the same way at any given time and for that reason, it is important to study & understand how best to teach and develop a child. This course will make you understand that every child has difficulties with behavior at times and teaches you how to handle them.
